The Hamilton Friendship Association with Cuba & McMaster OPIRG invite you to an evening lecture by Jorge F. Soberón Luis, Consul General of Cuba in Toronto on the current situation in Cuba in the context of the ongoing illegal U.S. blockade of this Caribbean island. Discussion will also take place on the importance of principles of non-aggression and non-interference between countries for Cuba and the region, and as enshrined in international law. Hamiltonians of all ages and from all walks of life are always eager to hear from their Cuban friends on the basis of people to people friendship and learning. We are pleased to be a part of facilitating locally this long-standing tradition which is vital in ensuring continued positive relations between our two countries. Such friendly relations between Canada and Cuba are a factor for peace as is the affirmation of Cuba's right to live free of U.S.-led aggression.
