**CPC(M-L) Condemns the Killing of Palestinian Leader
The Sacrifice of the Resistance Forces
Knows No Limits**

The Communist Party of Canada (Marxist-Leninist) joins the Palestinian people and their Resistance in mourning the death of the Palestinian freedom fighter and Hamas leader Yahya Sinwar in battle against the Israeli Zionist armed forces in Rafah.

Yahya Sinwar was greatly admired, highly effective, tremendously courageous; an obstacle to the nefarious plans of the U.S./Israeli Zionists to eradicate the

Palestinian people and create a Greater Israel which dominates West Asia and North Africa. Will they now succeed? No, they will not succeed. The Resistance is not one individual, but a whole integral force, connected together and advancing the fight for a free Palestine.

In Palestine, Lebanon, Yemen, Iraq, Syria, Iran and all countries caught in the maelstrom of unfolding events, we see cowards and heroes face to face.

The cowards are the U.S./Zionist forces, their Genocide Cartel including the Government of Canada, and appeasers. For them no crime is too much so long as their wars, violence and power can carry on. They are devoured by revenge and hatred because they suffer one failure after the other as their wretched plans do not bring them the victories they desire.

They think that their depraved actions can dictate the outcome according to their vile wishes. But all the world sees is their genocide with its bottomless pit of depravity.

Those who think they can dictate to history by creating new killing fields boast that their vile consciousness and actions signify their victory. President Joe Biden congratulated the Zionists and proclaimed the martyr's death a "Good day for Israel, for the United States, and for the world." He called it a "moment of justice," and an "opportunity" for promoting a ceasefire to the U.S. liking.

The Resistance forces have made clear they will persist in their just cause of freedom for Palestine, and the world's peoples stand with them. They have no confidence in the U.S. boasting which drips with their shame, failure, dishonour and cowardice.

The heroes are the forces fighting for the New who know that history does not follow anyone's wishes. History is the realization of what is objective, what is inherent in the existing relations, at the same time what is conscious and consistent with it. This is the hallmark of the Resistance forces. This was the hallmark of Yahya Sinwar. It inspires confidence, courage and conviction that victory will be theirs, that it is the peoples and their drive for new relations of empowerment that will prevail.

History is rendering its verdict. The judgement will fall on those who are in a hurry to get rid of the freedom fighters and ignore what they represent, why they are fighting, what inspires them to reach new heights of glory as they open new paths to achieving freedom and liberation.

The Resistance forces are in step with the forces which make history. Theirs is the human force which will overtake whatever stands in the way of humanity's quest for peace, freedom and democracy. No matter what calculations the cowards

make, their reckoning is sterile in the face of the mighty human beings who are propelling the wheels of history in their own favour.

Deepest sympathies to the Palestinian people, to the Resistance Movement Hamas and all Resistance forces for the loss of Yahya Sinwar.

These are trying and perilous times. History calls on humanity to forge a broad political united front which supports the Resistance forces. Such a broad political front, led by the working class and uniting the peoples of each country with the world's peoples, will settle scores with the old conscience of society which gives the U.S./Zionist depravity impunity to kill women and children, families and entire populations *en masse* to achieve aims which cannot be condoned.

All Out to Support the Palestinian Resistance!

Palestinian Resistance Movement Hamas Confirms Death of Yahya Sinwar in Battle Against U.S./Zionist Forces

On Friday, October 18, the Palestinian Resistance Movement Hamas confirmed the death of their leader Yahya Sinwar who was killed in battle. Yahya Sinwar, 61, was a Hamas leader in Gaza since 2017. He was appointed leader of the Hamas Political Bureau in early August after the assassination of the previous leader of the Hamas Political Bureau Ismail Haniyeh in Tehran on July 31.

"We mourn the death of the great leader, the martyred brother, Yahya Sinwar, Abu Ibrahim," Khalil Hayyeh, a Hamas official based in Qatar, said in a video broadcast on *Al Jazeera*. Sinwar "died as a hero and a martyr, fighting against the Israeli army," Khalil Hayyeh said. Hamas "will continue its struggle until the establishment of a Palestinian state on all Palestinian land, with Jerusalem as its capital," he added.

Hayyeh also said that "the Israeli hostages will not be released as long as the aggression against the Gaza Strip continues and our prisoners in Israeli prisons are not released."

Hamas' armed wing, Al-Qassam Brigades, issued a statement noting "More than a year after the Al-Aqsa Flood battle ... leader Yahya Sinwar, head of Hamas, rose as

a martyr, facing the enemy head-on with his weapon drawn, engaging with the occupying army at the forefront of the most dangerous combat zones in Rafah, southern Gaza."

The statement noted that despite having the most advanced surveillance and tracking equipment, the U.S./Zionist forces had failed to locate Yahya Sinwar for more than a year, claiming that he was hiding in tunnels and among civilians, but that the leaked drone image "of the architect of the Al-Aqsa Flood, Hamas leader Yahya Sinwar, showed him in his final moments, wearing a military pouch and fighting the invading occupiers until his last breath, ... refusing to retreat, appease, or hide, contrary to what Israel and its supporters had propagated."

Sinwar "died as a martyr and a hero alongside his jihadist brothers," Al-Qassam Brigades said.

"The criminal enemy thinks that by killing the great leaders of the Resistance, such as Sinwar, Haniyeh, Nasrallah, or Arouri, it can force the Resistance to retreat. The Resistance will continue until it achieves its goal," Al-Qassam Brigades said.

The monopolized media which promotes the Zionist cause of eradicating the Palestinian people seized on the news like bloodthirsty vultures, gleefully reporting the death of the Hamas leader, using inhuman and degrading expressions -- "Israel beheaded Hamas." They euphorically reported the actions and statements of the Netanyahu government and presented the death of the Hamas leader as offering a possible option for a "peaceful settlement." In their euphoria, they boasted that this marks the beginning of the "decline of Hamas."

Known for making foolish statements, Prime Minister Trudeau declared that the death of Hamas leader Yahya Sinwar "puts an end to a reign of terror." Joe Biden hailed the death of Sinwar. Calling him an "obstacle" to peace in Gaza, Biden called his assassination a "good day for Israel, the United States and the world." Biden told reporters that he called Netanyahu to congratulate him: "I told him I was really pleased with his actions and further, that now's the time to move on."

All of them will rue the day they believed the Palestinian Resistance is about an individual, an ideology, an act of terrorism. The Palestinian Resistance is supported by an international movement of global reach of unwavering support for the Palestinian just cause. It demands an end to the genocide against Gaza, the liberation of Palestine and defends the people's right of return. The Resistance exists and is growing. Canadians and Quebeckers from all walks of life have not stopped organizing and taking their place alongside the Palestinian people. They will not stop.
