

# AUTO JOBS IN OUR COMMUNITY

Canada's auto industry has survived years of turmoil. Despite downsizing, the industry makes a crucial contribution to Canada's productivity, exports, and incomes. Yet our auto jobs face increasing threats: from globalization, apathetic governments, and corporations more aggressive than ever.

**Attend this special community meeting** to learn more about: the importance of auto jobs in our community; the threats facing the industry; and the CAW's new proposals to strengthen auto jobs for the future.
