

Advance Fighting Youth of the World

From the mountains of Afghanistan
From the blazing cities of Iraq
From Palestine's death-defying fighters
Rises strong the voice of the youth

From the battle of Seattle
Through the tear-gassed streets of Quebec
From Genoa to Gleneagles
Rises strong the voice of the youth

Chorus:

Youth of the world
Our path is clear
Our victory draws near
Fighting as one
Nothing to fear
Advance youth of the world

From the workers' protest marches
People fighting for their rights
Surge against imperialist might
Rises strong the voice of the youth

Everywhere the people fight
People's voices growing strong
End exploitation and oppression
Rises strong the voice of the youth

Chorus

We seize our weapons in our hands
And with our word and pen
With science and conviction
Rises strong the voice of the youth

Youth rise up against aggression
Against imperialist war
One humanity one struggle
Stronger rises the voice of the youth

Chorus
