

# End Colonial Justice

The colonialists came and plundered  
This glorious land  
Stolen from the Original peoples  
Called it their homeland  
The resistance to this colonial blight  
Continues now without respite  
End this injustice, colonial justice, end this injustice. (bis)

The settlers plowed the prairies  
Built the cities where they trade  
Dug the mines and built the factories  
Endless miles of railroad laid  
Our people have a proud heritage  
Of fighting against our bondage  
Fight for our sovereignty, fight for our sovereignty,  
Fight for our sovereignty (bis)

They plunder other peoples  
Occupy their lands  
They serve U.S. aggression  
With criminal brutal plans  
They trample national sovereignty  
In the name of human security  
Stop these crimes, stop these crimes, stop these crimes (bis)

No to occupation,  
Aggression and war!  
Our demand is sovereignty  
That's what we're fighting for  
One struggle! One humanity!  
Has raised the flag of liberty  
Win liberation, win liberation, win liberation (bis)
